Paragon Sports Wraps-Up another DISD Stadium

Fort Worth—Monday, June 20, 2011—Paragon Sports Constructors field crews are wrapping-up another top quality turf and track installation for Dallas Independent School District.

“The turf installation is complete and our crews will be surfacing the running track at Wilmer Hutchins High School Stadium in the coming weeks,” said Rex Shelley, Project Manager for Paragon Sports Constructors.

The stadium renovation is part of the total renovation of Wilmer Hutchins High School located on the south side of Dallas; Paragon Sports Constructors is working as a sub-contractor to Warrior/McCarthy Builders on the project, which is scheduled to be complete this summer. Desso D-Vision 60mm synthetic turf was installed earlier this spring and the Conipur SP track surface will be completed in time to turn over the school to the district in July.

“Our personnel have constructed several stadium fields and running tracks for the district in the past, including the track and field at Jesse Owens Complex. We’re excited to do it again and to bring the district the best quality products available,” said Bret Allen, VP Sales and Marketing for Paragon Sports.

Paragon Sports is a turn-key sports construction company based in Fort Worth, Texas. They specialize in the construction of natural grass and synthetic turf sports fields and running tracks.
